

# EMS Safety Services

## How to become an instructor

EMS Safety Services is able to support the needs of new and experienced instructors alike. We offer instructor courses for individuals and groups. Instructors already certified with another recognized training agency may grandfather into our program.

### Instructor Training Courses

Each instructor course is lead by an EMS Safety Services certified Instructor Trainer. There are no hidden costs!

To sign up fill out the registration and order forms and send them to us along with a copy of your relevant provider certification card(s).

Every instructor course includes:

- An Instructor manual
- A sample student workbook
- Required training video(s) or DVD's
- An instructor card valid for two years (upon completion of course)

#### CPR/First Aid Instructor Course

**16 hour course**

- Adult, child and infant basic CPR and First Aid training
- Education/practice in teaching methods, lecture techniques, and skills assessment
- In-depth information on anatomy, physiology, illnesses and injuries
- Marketing your services
- Target audience: Workplace responders, teachers, safety officers, municipalities, community groups and more...

#### AED Instructor Course

**8 hour course** (4 hours when combined with CPR/First Aid instructor course)

- Review the latest techniques in the use, maintenance, troubleshooting and regulations of the Automatic External Defibrillator.
- Education/practice in teaching methods, lecture techniques, and skills assessment
- AED trainer review
- Target audience: Workplace responders, teachers, safety officers, municipalities, community groups and anyone wishing to utilize an AED

#### Pediatrics Instructor Course

**2 hours** of additional training

Pediatrics (only for California based instructors who wish to market training to daycares)

- Approved by the California EMSA for instruction to licensed daycare centers and school bus drivers.
- Includes supplemental training on nebulizers and inhalers, as required in California daycare centers.
- Instruction provided on California daycare training regulations

(Note: this course is separate from "health and safety" for California daycares.)

### Grandfathering

Already an Instructor? Take advantage of our "grandfather" opportunities.

To Grandfather into our program fill out the registration form and send it to us along with a copy of your relevant instructor certification card(s).

Every grandfather kit includes:

- An Instructor manual
- A sample student workbook
- Required training video(s) or DVD's
- An instructor card valid for two years

#### Grandfather A

Offered for current instructors in both CPR and First Aid through other nationally recognized organizations. No further training is required.

#### Grandfather B

Offered for current instructors of either CPR or First Aid through other nationally recognized organizations. You must attend an 8-hour instructor certification course for training in the area you are missing.

#### Grandfather AED

Offered for current AED instructors through other nationally recognized organizations. No further training is required.

### Self Study Courses

#### Bloodborne Pathogens

This Instructor Kit will enable the Instructor to provide comprehensive training in Bloodborne Pathogens in the workplace.

Includes: Instructor Manual, Self Study Guide, 18-minute video, sample student workbook, and 10 student workbooks and course completion cards. Each Instructor will receive an instructor card valid for two years, after meeting all requirements.
